CALL FOR PAPER PUBLICATION

The Upland Farm Journal, the official research journal of the Ifugao State University is a print journal that publishes high-quality articles, in English, in all areas of academic discipline. All articles published in the journal is peer-reviewed using the double blind scheme. The Upland Farm Journal is published annually or biannual depending on the number of article submission. Contents of the journal will be uploaded in the IFSU website in pdf format for general circulation. The UFJ is a recognized scientific journal by the Commission on Higher Education, Philippines, CMO No. 22, s-2015

The types of paper published in the journal include regular research articles that describe new information/findings derived through scientific methods. Short communications or action research are also accepted. Reviews of books and articles covering topics of current interest are also welcome for publication.

Manuscript Submission

The UPLAND FARM JOURNAL is inviting papers for the 2015 Issue, Volume XXIII, No. 1, which is scheduled to be published in June 2016. Any scientific paper/article may be submitted for publication, provided, the work is not previously published in any journal or submitted to other publishers. A certification to this effect is required from the author/s.

Articles shall be submitted in electronic copy either directly to IFSU R & D office of the University or through online submission at research_journal@ifsu.edu.ph. Direct submission can be addressed to:

The Editor
The Upland Farm Journal,
IFSU Lamut, Ifugao 3605

When sending through email, please upload your manuscript as a SINGLE FILE.

Please send your manuscript on or before March 30, 2016.

Review Process

The Upland Farm Journal follows a double-blind peer review process. All submitted manuscripts are subjected to a standard refereeing process. To ensure objectivity, the name of the author is removed from the manuscripts prior to their being sent out for review, and the referees’ names are not revealed to authors. Papers are assigned to referees on the basis of their fields of expertise.

Publication Fee

Authors of articles accepted for publication are required to pay PhP4500.00 or USD 100 as article publication processing fee for the 7 print pages (14 pages double space), in order to
defray costs of proofreading, peer reviews, printing of hard copies, delivery and other related processing expenses. Additional amount of PhP350 per print page (2 pages double space) is required for articles in excess of seven pages.

Author(s) are given one printed copy per author free, but not more than 3 copies per paper/article. Additional copies can be availed by authors upon request and payment of additional cost. Cost of the journal varies per publication due to variation in number of articles and number of pages per article.

Types of Contribution

Regular research papers: Original research papers on innovative findings for the improvement of life and/or systems. It has the following parts:

Title: clear, descriptive and brief (12 to 15 words)
Name(s) of author(s)
Contact number and e-mail address of the author
Abstract: not more than 250 words, it should indicate the objective of the study, experimental details/methodologies and the significant results obtained.
Key words: three to six words

Introduction: a brief discussion of the most relevant and recent works and facts that justify the need to conduct the study; contains the background of the study, conceptual framework/theoretical framework and objectives/statements of the problem of the study (in paragraph form).

Research Methodology: should be clear that it can be repeated independently

Results and Discussion: all results need not be included, but only important ones; also, facts should not be mixed with speculations or opinions; corroborate findings; present and discuss results based on objectives/statements of the problem.

Conclusion and Recommendations: written in paragraph form and based on specific objectives/statements of the problem of the study. The conclusion is not just a summary of findings; the implications should be presented as supported by the findings.

Literature Cited: All publications cited in the text should be presented in a list of references using the APA format. The list must only include those which were cited in the texts.

Acknowledgements (optional)

Review articles: It should be topical and not just an overview of literature.

Short communications: A concise but complete description of an investigation of limited scope.
**Book Reviews:** Reviews on relevant books which are not more than two-years old.

**Preparation of Manuscripts**
1. Use clear and simple language (avoid technical jargons and vague generalizations)
2. Use MS Word, Garamond, and font 12 in all texts including headings
3. Use double space, 8.5” x 11” paper, margins: top- 1”, left- 1.5”, right-1”, bottom-1”
4. Italicize all scientific names, only the first letter of the first word should be capitalized, e.g. *Harpuliaarborea.*
5. Italicize indigenous/native terms used in the text including headings, e.g. *tinawon.*
6. Every page of the manuscript should be numbered.
7. Do not underline text including headings.
8. Manuscripts for publication should not be more than 10 print pages (20 pages double space).

**Details of Manuscripts**

1. **Tables/figures**

   Discussion precedes all figures and tables. They are numbered in Arabic numerals and mentioned in the text. Figures are accompanied with explanatory legends and tables with headings (Centered not capitalized except the letter of the first word).

2. **Units, symbols and abbreviations**

   Use SI units recommended by the International Organization for Standardization (ISO). For plants and other living organisms, give the current scientific names, common names and local names (if available).

   Use standard abbreviations and acronyms. Do not abbreviate words or use acronyms in the title and abstract. Spell out common words when used for the first time in the manuscript and include the acronym in parenthesis. For uncommon words, spell them out until the later part the introduction and alternately in the other parts of the manuscript.

3. **Citations in the Texts**

   In citing publication written by a single author, reflect author's name and year of publication enclosed in parentheses, e.g., (Cruz, 2010). If reference is made to a publication written by more than two or three authors, their surnames m (Gomez, Pedro & Hello, 2012). In succeeding citations, only the of the first author should be used followed by “et al.” (Gomez et al., 2012). In the Literature Cited, however, all authors should be mentioned.

4. **Literature Cited**

   The list of references should be arranged alphabetically based on author’s names.
References should contain: author's last name followed by author's initial(s), year of publication (in parenthesis), title of article (only first letter and proper nouns capitalized).

**Examples:**

a. Journal: Italicize the title of the periodical and volume number.

b. Magazines: Include the year, month and day.

c. Newspapers: Use p. or pp. with the page number

d. Books: Include the place (city) and the publisher

e. Electronic references: use the Uniform Resource Locator (URL)

f. Organization as author: When publisher is the same as the author, use the word “author” instead of repeating the organization’s name as the publisher.

Abbreviate the titles of periodicals mentioned in the list of references according to the International List of Periodical Title Word Abbreviations.

5. Photographs
   When necessary, supply original photographs with clear and explanatory captions.

6. Formulae
   Make subscripts and superscripts clear. Always consider the difference between zero (0) and the letter ‘O’ and between (1) and the letter ‘I’.
   Give meanings of symbols used for the first time after the equation in which they are first used.

7. Acknowledgments (optional)
   Acknowledgement is in a separate page before the Literature Cited.

8. Acceptance of papers/articles
   The Ifugao State University reserve the right to accept or deny publication of any submitted papers/articles for publication.
